The following questions have been received:

Question: The schedule of items has a pre-filled number of \$20,000.00 for labor, parts etc. Is this the cap for any parts, labor?

Response: The \$20,000.00 is used for the replacement or the adding of equipment.

Question: Is there an equipment list for each location or are we expected to have performed site assessments for each location?

Response: The contract is primarily set-up for monitoring services, therefore no equipment list is provided.

Question: Please clarify how we are to handle the one-time sites connection fee.

Response: It is the Contractors responsibility to handle connection fees.

Question: Please clarify if additional equipment may be required to connect to our monitoring, how that will be handled.

Response: See page 27, paragraph 4, which begins; "Repairs and troubleshooting that require..."
